NAMAN SINGH

Greater Noida, India | ns2549477@gmail.com | Linkedin | GitHub | 9911988102

OBJECTIVE

Result-oriented MCA (AI & ML) student with hands-on experience building machine learning models, conducting exploratory data analysis, and deploying data-driven applications. Eager to apply strong foundations in Python, machine learning, and deep learning as an AI/ML Engineer to build scalable, real-world AI solutions.

EDUCATION

Master of Computer Application (Specialization: AI & ML) *Expected 2027*
Galgotias University | CGPA: 9.35

Bachelor of Computer Application *2022 - 2025*
Trinity Institute of Professional Studies, GGSIPU | CGPA: 9.11

TECHNICAL SKILLS

Programming & ML: Python, Machine Learning, Deep Learning, Data Structures, TensorFlow, Statistics
Data & Analytics: EDA, SQL, Data Visualization, StreamLit
Visualization Tools: Power BI, Tableau
Soft Skills: Problem-Solving, Analytical Thinking, Team Work, Communication, Time Management

INTERNSHIPS & TRAINING

AI/ML Virtual Internship — AICTE & EduSkills (Supported by Google for Developers) *Jun - Aug 2026*

- Completed an 8-week virtual internship focused on AI/ML fundamentals, model building, and cloud integration; achieved an Outstanding (O) grade.
- Gained practical exposure to applying AI/ML techniques in real-world application scenarios.

Data Analyst Intern, Sarvagya Institute *Jun - Aug 2024*
New Delhi

- Cleaned and transformed institutional data using SQL and Python for downstream analysis.
- Built a Power BI dashboard that improved data visibility for stakeholders.
- Conducted data cleaning, transformation, and exploratory analysis to surface trends in data.

PROJECTS & Leadership

Fraudulent Transaction Detection

- Built a machine learning model to identify fraudulent transactions using features like transaction type, amount, balances, and behavioural patterns.
- Applied anomaly detection techniques to enhance financial security and reduce fraud risk.
- Developed and deployed an interactive UI using StreamLit.

Exploratory Data Analysis — Pokemon Dataset

- Performed EDA on the Pokemon dataset to uncover patterns, statistics, correlations, and trends using visualizations, translating raw data into actionable insights.

Tableau Dashboard — Netflix

- Designed an interactive Tableau dashboard to visualize and analyse Netflix content data, strengthening data visualization and storytelling skills.

Graphic Department Head — APEX Designing Club

- Led the graphic design department and mentored club members in graphic design techniques.

CERTIFICATIONS

- Deloitte Data Analytics Job Simulation Certification
- Appreciation Award and Letter of Appreciation for Secretary of Coding Club (ALFA)
- Token of Appreciation from College for delivering as a Resource Person for a Value-Added Course on “Artificial Intelligence” for juniors

EXTRA-CURRICULAR ACTIVITIES

- Playing and watching football
- Singing
- Photography
